

To Whom It May Concern

I am Dr. Mohammad Rejaul Haque, the Associate Professor at Ahsanullah University of Science and Technology, writing this letter to provide a recommendation for AbuBaker Abdullah, a promising student for UAE. I was the External supervisor during the thesis curriculum at Ahsanullah University of Science and Technology. Abu Baker showcased great leadership skills and great efficiency in communication and making decisions. His adaptability skills and team management were quite remarkable.

Abu Baker portrayed himself through his hard work and innovative approach to the Project and Thesis (ME4000) course under where I was the External, "**Observing the deepwater environment using an underwater vehicle**". He solved the calculations on how to submerge an underwater vehicle with proper mass and how to bring out that mass in a certain situation. He is also able to operate simulation software such as SolidWorks and is very good at understanding the mechanical drawing aspects. Abu Baker's involvement in university sports and club events showcases his well-rounded personality and ability to balance multiple responsibilities.

I am writing to offer my unequivocal endorsement for Abu Baker Abdullah, a highly distinguished candidate seeking career opportunities. Abu Baker's diverse skills and experience make him an exceptional candidate and will also prove him a great asset to your institute. If you have any questions, feel free to contact me at md.rejaulh37.mpe@aust.edu. Please feel free to contact me if you require any further information or have any questions.
